Dear Mr. Antal:

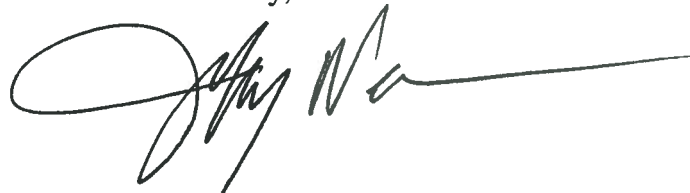

Thank you for your letter dated April 6, 2015, which raises concerns about the use of drones.

Honeywell is a Fortune 100 diversified technology and manufacturing leader, serving customers worldwide with aerospace products and services; control technologies for buildings, homes and industry; turbochargers; and performance materials. We are committed to building a world that is safer and more secure, more comfortable and energy efficient, and more innovative and productive.

Honeywell does provide engines and guidance systems to the U.S. military for various applications. We provide this technology in accordance with all applicable laws and regulations. This technology helps ensure that missiles and munitions hit the intended target and thereby reduces the potential for collateral damage.

Thank you again for this opportunity to address your concerns. If there is any additional information concerning Honeywell that we can provide, please feel free to contact me directly.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey N. Neuman", with a long horizontal line extending to the right.
